

Washington DC EMA Ryan White HIV/AIDS Program Data Management – Grant Year 31

Outline

- Introduction
 - Points of Contact Overview: Ryan White Data Manager and CAREWare Administrator
- Ryan White Data Management Review:
 - Ryan White Client-Level Data Reporting Cycle
 - Changes to data report for GY31- Program Income Client Level Data Requirement
 - GY29 Aggregate Data Overview

Introductions

CAREWare Administrator

- Serve as the point of contact for all CAREWare inquiries including installation, access, training, and customization of the system
- Accessing CAREWare data including uploading and exchanging data across the EMA

Ryan White Data Manager

- Manages program data and analysis activities to fulfill federal reporting and program monitoring requirements for HIV/AIDS care, treatment, housing and supportive services funded by the Ryan White CARE Act
- Point of Contact for inquiry regarding the annual Ryan White Services Report (RSR) submission for the Washington DC Eligible Metropolitan Area (EMA)

Data Reporting Timeline

- **Client-Level Data Report (Monthly)** - due no later than 10th business day for preceding month
 - **Submitted to HAHSTA only**
- **Mid-Year Ryan White Services Report (bi-annually)** - Due last Thursday in August
 - **Submitted to HAHSTA only**
- **Annual Ryan White Services Report (annually)*** - Due Last Thursday in February
 - **Submitted to HRSA/HAB in the Electronic Handbook (EHB)**
- **Data Improvement Project (annually)**- Due 30 days before the end of the program year

* Inclusion criteria for this requirement. All providers are recommended to participate.

GY31 Changes - Eligible Services Reporting

- GY31 will initiate the submission of client level data for RWHAP eligible clients that received an allowable service funded through RWHAP-related expenditures (Pharmaceutical Rebates and Program Income)
- All providers are required to report data on RWHAP clients who receive services funded by program income and pharmaceutical rebates, which are generated as a result of the RWHAP award

Scenario: RWHAP subrecipient funded by RWHAP Parts A, B, and C provides OAHS, MCM, mental health, substance abuse services, and EIS.

Service Category	Funding Streams	Current RSR Reporting	Eligible Services RSR Reporting
Outpatient Ambulatory Health Services (OAHS)	Part A, Part B	All RWHAP eligible clients	All RWHAP eligible clients
Medical Case Management (MCM)	Part A, Pharmaceutical rebates, Part C	All RWHAP eligible clients	All RWHAP eligible clients
Substance Abuse Services	Pharmaceutical rebates	No client level reporting	All RWHAP eligible clients
Mental Health Services	SAMHSA	No client level reporting	No client level reporting
Early Intervention Services	Program Income	No client level reporting	All RWHAP eligible clients

Impact of Eligible Service Reporting Change

What is the impact of collecting Client Level data from program income?

- RWHAP can measure investment and impact of all RWHAP-related expenditures at state and local levels
- Clearer picture of service utilization and client outcomes in RWHAP eligible clients

What is the difference between eligible scope and eligible services reporting?

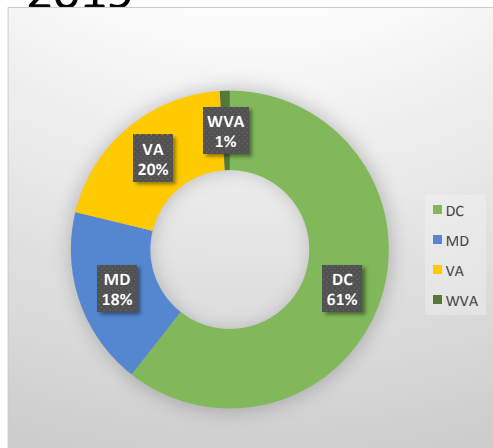

- In both eligible scope and eligible services reporting, you will need to report all eligible clients regardless of payor.
- Under **eligible scope reporting**, you would report all clients who receive a service for which you received RWHAP funding to provide.
- Under **eligible services reporting**, the new reporting requirement, you must report all clients who receive a service for which you received RWHAP funding or RWHAP-related funding to provide.
