

Performance Measures Portfolio

Funded service category <i>(list of all RWHAP funded service categories)</i>	Client services utilization data (expressed as a percentage)	Performance measure(s) (list the measures selected for each service category)	Numerator (list how each measure's numerator is defined)	Denominator (list how each measure's denominator is defined)	Baseline Data (data point at end of previous grant year/start of current grant year)	Data source(s) (What is the primary source for data? What data management system stores the data? How does the recipient access needed data?)	Frequency of data collection (How often is CQM data collected? What are the measurement periods?)	Method of data collection (How is subrecipient provided data received? Does the recipient aggregates data? How are data reports managed?)	Method to analyze data (How is data integrity validated? Who is responsible for data analysis? Is the data stratified? How?)	Method for sharing data (How is data shared? When? With whom?)
